

FCT Discussion Group

Welcomes You to

Its 20th Meeting to

Support the Project on

“Gender Dysphoria

Consequences of It Not Being an Illness”

Undertaken by Swarnava and Mishaal,
Undergraduate Students, Department of Psychology
MS University Baroda

on Wednesday, 13 February 2019 at 4 pm

At

**Conference Room, Forum on Contemporary Theory
C 303, Siddhi Vinayak Complex, Faramji Road, Vadodara**

Gender identity disorder and gender nonconformity has been recently declassified by the APA from their erstwhile status as an illness. Gender dysphoria is what they reclassified it as. This medico-legal reading down by an international mandate has far reaching consequences in the ways in which it is commonsensically perceived and the social stereotypes that proliferate around it. Please support this project's attempts to understand some of the ongoing shifts in perception locally to promote awareness and sensitivity.

Please feel free to attend even if you haven't attended the previous meetings, read the pieces we discussed and films we screened. Meetings are open to all and completely free. We will resume our ongoing discussion on “What/Why Theory?” from Wednesday, 20 March 2019.
